

GABRIEL DELATORRE MONTEIRO

gabrielmonteiro@live.com
Full-Stack Developer - Remote,
São Paulo, Brasil

PROFESSIONAL SUMMARY

Experienced and forward-thinking Software Developer with 10 years of hands-on expertise in architecting, developing, and deploying innovative software solutions, Proficient in a diverse range of programming languages including Python, JavaScript, Go, and Java, with a strong command of both SQL and NoSQL databases. Adept in leveraging cloud platforms such as Google Cloud Platform (GCP), AWS, Azure, and IBM Cloud to design and implement scalable and resilient systems. Demonstrated experience in integrating AI and machine learning algorithms into applications for predictive analytics, natural language processing (NLP), computer vision, and recommendation systems. Skilled in leading cross-functional teams, implementing CI/CD pipelines using Jenkins and Kubernetes, and employing agile methodologies to drive project success. Demonstrated ability in problem-solving, system optimization, and delivering high-quality, maintainable code. Passionate about staying at the forefront of technology trends, especially in AI and machine learning, and continuously enhancing skills to deliver exceptional results in dynamic and challenging environments.

SKILLS

- Programming Languages: Python, JavaScript, Go, Java, SQL, NoSQL
- Cloud Platforms: Google Cloud Platform (GCP), AWS, Azure, IBM Cloud
- Tools/Methodologies: Git, CI/CD, Jenkins, Docker, Kubernetes, Matplotlib, Plotly, Dash
- Frameworks/Libraries: Django, Flask, React, Node.js
- Databases: MySQL, PostgreSQL, MongoDB, Firebase
- Agile Methodologies, Software Architecture, DevOps

EXPERIENCE

Application Developer, IBM, Dec 2021 - Current, São Paulo, SP Brasil

Expertise in translating IT requirements in the design, development, and assembly of components to create custom information systems. Typical examples of the deliverables are functional and technical designs, models, components, code, unit tests, and documentation.

Full-Stack Developer, Consiglog Tecnologia e Soluções LTDA., Apr 2020 - Dec 2021, São Paulo, SP Brasil

- Requirements gathering
- Development with C #, .NET, Windows Forms Architecture, MVC and SQL Server

- Unit tests aimed at software quality and performance
- Data security

Customer Success, Digital Monk, Apr 2018 - Jun 2018, São Paulo, SP Brasil

- Technical presentation, requirements gathering and platform implementation using JavaScript and/or Google Tag Manager
- Analytical reporting using Python

EDUCATION

Bachelor, Computer Science Dec 2017

Universidade Anhembi Morumbi - São Paulo, SP, Brasil

- Award for academic success - Computer Science - Highlight of the University's best students - Graduates 2017

Bachelor, Digital Games Dec 2025

Universidade Anhembi Morumbi - São Paulo, SP

Bachelor, Big Data and Analytical Intelligence Dec 2025

Universidade Anhembi Morumbi - São Paulo, SP
